

# Easter Egg Dyed Spuds

## Ingredients/Equipment

Spudshed Baby Spuds 1kg

Queen Food Colouring

Paper Towels

Paint Brushes

Disposable Gloves

## Method

### Step 1

Ensure your baby spuds are clean & dry.

### Step 2

Prepare your surface. Cover your crafting area with either newspaper, paper towels or plastic wrap. Ensure you're wearing disposable gloves, old clothes or an apron, and that you're working on a surface that's covered to avoid any staining.

### Step 3

Lay your spuds out on paper towels, and gather your food colouring and paint brushes.

### Step 4

Squeeze a drop or two of food colouring onto your spud.

### Step 5

Take a paintbrush and paint the food colouring all over the spud, letting it dry on the paper towel.

### Step 6

Allow the spuds to dry for several hours or overnight, before displaying them on your table, windowsill or in your chosen Easter basket.

### Step 7

Once your painted spuds are dry, you can add some finishing touches by sprinkling them with glitter or other fun decorations. You could also draw on each spud!

*Tip: Mix different combinations of the food colouring together to create new colours for the spuds!*
